

Instructions

For 2 to 4 Players
Ages 5 and up

OBJECT:

Be the first player to collect the four different color ribbons and reach the finish space.

CONTENTS:

Game board, spinner card, spinner, 5 movers, 4 mover stands, 16 ribbons in 4 different colors.

SET UP:

Carefully separate the four different ribbon colors and place them, where indicated, on the game board. Separate the movers and place each one into a mover stand. Each player takes a mover and places it at start. Five movers are included in the game to give players more choice of characters.

ASSEMBLE THE SPINNER:

Separate the spinner from the collar and remove and discard the plastic nib. Press the collar completely into the spinner card from the bottom side. Snap the spinner into the top of the collar.

PLAYING:

The youngest player goes first then play moves in a clockwise direction. Spin the spinner and move that many spaces, clockwise, around the game board.

RIBBON SPACES:

When you spin a number that either takes you to a ribbon space – or past one – stop and collect that color ribbon. Wait on the space until your next turn.

If you land on a space for a ribbon color you already have, simply wait there until your next turn. A player shouldn't have more than one of each ribbon during the game.

GALLOP SPACES:

When you land on a gallop space by exact count you must immediately move to any other gallop space and wait there until your next turn.

REST SPACES:

When you land on a rest space by exact count, you lose your next turn.

SWITCH PLACES:

When you land on a switch places space by exact count, you must immediately switch places with another player.

ENDING AND WINNING THE GAME:

The first player to get all 4 ribbons and reach or pass the finish wins.
