

SCOOBY-DOO! Trivia Game

Ages 7 and up
For 2 to 4 players

INSTRUCTIONS

OBJECT:

Be the first player to answer a question correctly in each of the six categories.

CONTENTS:

Question and Answer cards, kids' Question and Answer cards, game die, and category cards.

SET-UP:

Remove the category cards from the deck and place them in six piles, one for each category. Remove the Kids' Question and Answer Cards (these are the cards that have Questions and Answers on one side and a picture on the other). If you are going to be using these in the game, place them all picture side up and mix them. Place them in their own pile.

Separate the remaining question and answer cards into two decks. One deck will have questions 1, 2 and 3 on them; the other deck has questions 4, 5 and 6 on them. Place both decks question side up.

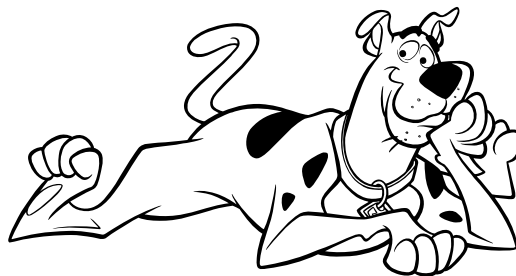

PLAYING:

Highest roll goes first then play moves clockwise. On your turn roll the die. The player to your left will take the top card from the appropriate deck (1, 2 and 3 or 4, 5 and 6--depending on the roll) and read the corresponding numbered question.

These are the categories in the game:

- 1--Scooby-Doo! and Family, Too
- 2-Friends/Others
- 3-Villains/Monsters Places
- 4--Places
- 5--Behind the Scenes
- 6--Grab Bag

You give an answer and the player to your left will look on the back of the card to

see what the correct answer is. If you answered correctly, take one of the corresponding category cards and roll again. During the game, players can only have one of each category card. Players keep rolling and answering questions until they give an incorrect answer. At that point, the player to the left takes his/her turn.

When you roll a number for a category you already have a card for you still answer the question. That way, if you answer correctly you get another turn and may roll a category that you DO need!

Playing with younger children: On their turn, hold up a picture card so that the picture is facing them and the questions/answers (on the same side for this deck) are facing you. Note that there are no specific categories for younger players. When they answer a question correctly, they can take ANY category card. They are trying to get ANY six questions correct before any other player to win.
